

# Racing Cells

## Alcohol Bladder Care

Prior to using your new Pyroprotect Racing Cells Alcohol Bladder, there are some precautions to take into consideration:

- Wash your bladder with a mild soap and rinse it thoroughly with water
  - **DO NOT USE HOUSEHOLD CLEANING AGENTS**
  - **Never use PETROLIUM based additives, cleaners, or octane boosters;** this will destroy an alcohol bladder
- Use 100% Alcohol fuel only, i.e. Methanol, Ethanol (**Not E-85**)
- Top Lube can be used when premixed in a 1 part solution to 220 part alcohol ratio (1 qt. solution to 55 gallons alcohol premixed)
- Use no more than 20 Inch Pounds torque when mounting the top plate

To winterize your bladder we recommend to:

- Remove remaining fuel
- Wash your bladder with a mild soap and rinse it thoroughly with water
- Make sure the bladder is completely dry
- Close it up
- Amorall can be applied to the outside of the bladder
- Store in a climate controlled area
